**Annual Report of the
Post-Graduation First
Destination Survey
Class of 2021**

INTRODUCTION

This report provides data related to Seton Hill University student post-graduation outcomes for the class of 2021. The information represented in this report includes only first-destination data secured within six months to one year after graduation. This report adheres to the standards and protocols for collecting first-destination data set forth by the National Association of Colleges and Employers (NACE).

The Seton Hill University Class of 2021 includes the following graduates: August 2020, December 2020, and May 2021. A total of 522 students, consisting of undergraduate and graduate students were contacted to complete the 2021 Post Graduation First Destination Survey. Of the 396 undergraduate students, the Career and Professional Development Center staff determined the post-graduation outcomes for 373 students. This is a knowledge rate of 94%. For graduate students, the Career and Professional Development Center staff determined the post-graduation outcomes for 121 of the 126 students resulting in a 96% knowledge rate. The minimum national average knowledge rate for reporting purposes is 65%.

Students were surveyed through the First Destination Survey module of the Handshake career management system. Information was also obtained through faculty, staff, social media, direct phone calls, and email messages.
